PROJECTS

Electronics Sales Dashboard | Microsoft Excel

- Built an interactive dashboard using Pivot Tables, Pivot Charts, KPIs, and Slicers.

- Analyzed sales data by product, category, region, and salesperson to identify key trends.

- Generated actionable business insights to support strategic decision-making.

End-to-End Sales Data Pipeline | Excel, SQL, Power BI

- Built an end-to-end sales data pipeline: cleaned and structured raw data in Excel, queried and transformed it using SQL, and modeled it into a Power BI dashboard.

- Designed interactive Power BI visuals to track sales performance across product categories, regions, and time periods.

- Used SQL joins and aggregations to consolidate data and Power BI DAX measures to highlight top-performing products and regions.
